FOREWORD

Section 3(1) of Cantonments Act, 2006 describes Cantonment as a place or places, declared by the Central Government by notification in an official Gazette, in which any part of the Forces is quartered or which, being in the vicinity of such place or places, is or are required for service of such forces. The first Cantonment was established in Barrackpore (35 Kms. from Calcutta) in 1765 and the second at Danapore (Patna) in the same year.

2. There are 62 Cantonments in the country located in 19 States/UT. Cantonment Boards are urban local bodies, incorporated under the Cantonments Act, 2006 (earlier the Cantonment Act, 1924), to administer cantonments. Section 50 of the Cantonments Act, 2006 provides for submission of Annual administration reports of these Boards to the Central Government. These reports are compiled and published by the Directorate General of Defence Estates.

3. Cantonment Boards, under the provisions of sub-section (2) of section 10 of the Cantonments Act, 2006, are deemed municipalities under clause (e) of Article 243P of the Constitution, for the purposes of receiving grants and allocations and implementing Central Government schemes relating to development of infrastructure and social welfare. Cantonment Boards have power to raise resources through taxation, fees, lease rent in respect of lands under their management and rentals in respect of properties belonging to and vested in the Board. The main sources of income of a Cantonment Board are local taxes such as house tax, conservancy tax, water tax, lighting tax, trade and profession tax, service charges and vehicle entry fee etc. Expenditure is mostly on establishment and contingencies connected with rendering various civic services including maintenance of hospitals/dispensaries and schools.

4. The resources of Cantonment Boards are limited as the bulk of the property in Cantonments is government-owned which is exempt from property tax. The statutory demand of service charges levied on Government properties is presently not being met in full due to budgetary constraints. Moreover the nature of the Cantonments is such that there is only limited trade and business activity and practically no industry.

5. The Central Government provides financial assistance to Cantonment Boards in the form of ordinary Grant-in-Aid to balance their budgets. During 2019-20, 56 Cantonment Boards out of 62 received Grant-in-Aid amounting Rs. 361.60 crores from the Central Government. Further, grants for creation of capital assets to the tune of Rs. 10.00 crore were given to 02 Cantonment Boards for completion of ongoing infrastructure projects like Sewage Treatment Plants, Drinking Water Project, etc.

6. The Cantonment Boards under guidance from the Directorate General and the Directorates, are making vigorous efforts to seek share of net proceeds of revenue from the respective State Governments, which is a legitimate revenue of the Cantonment Boards. While the States of Madhya Pradesh, Uttarakhand, Meghalaya, Maharashtra, Karnataka, Punjab, Jharkhand and Telangana are sharing part of their revenues with the

Cantonment Boards, situated within their jurisdictions, liaison with other State Governments is ongoing.

7. Cantonment Boards are engaged in providing of civic services including primary and secondary education, basic health services (in some cases provision of specialist services through Dispensaries and Hospitals). Boards have taken steps to upgrade their health services by providing facilities like labour rooms, minor surgery OTs, diagnostic services, X-Ray, ambulances, specialized services, etc. Further, at present, the Cantonment Boards are running 34 "Centres for differently-abled children", 196 schools (ranging from Primary to Higher Secondary levels) in which approximately 60000 children are studying and 36 Skill Development / Vocational Training Centres in various Cantonments.

8. Under the Swachh Bharat Mission launched by Govt. of India, all Cantonment Boards have been taking earnest steps for creating clean and green Cantonment areas. All 62 Cantonments have already been certified by the MoHUA (Ministry of Housing and Urban Affairs) as ODF (Open Defecation Free) areas and the ODF status is also being sustained in all Cantonments. All Cantonment Boards participated in National level Swachhata Sarvekshan 2018, 2019 and 2020 conducted by MoHUA.

9. Environment protection measures like tree plantation, enforcing ban on polythene bags etc. have also been taken by the Cantonment Boards. Energy conservation measures like replacement of street lights with LED street lights, setting up of roof-top solar power plants are being taken by many Cantonment Boards.

10. Cantonment Boards have taken many steps in various aspects of Cantonment Board administration to achieve the goal of "Digital India" and improve the quality of service delivery. "Samadhan" – an on-line public grievances redressal system has been implemented by all Cantonment Boards to make their administration more responsive to the public. "Suvidha"- a software to address the grievances of the staff has also been installed by the Boards. In e-governance initiatives, Cantonment Boards have been continually automating their office processes. E-tendering and e-procurement are implemented by all Cantonment Boards. All the Boards have registered themselves on the GEM portal for procurement of stores.

11. Scanning and digitization of important records, particularly land records, and inventorisation of records has been completed. Raksha Bhoomi software for computerization of land records has been installed. Most of the Boards are already providing e-services to the residents in taxation, birth/death registration, hospital management etc. They have also strengthened e-service delivery by including online property tax payments, water charges payments, etc.

12. The Central Government notified the Cantonment Board Account Rules (CBAR), 2020, which became operational w.e.f. 01 Apr 2020, superseding the Cantonment Account Code, 1924. Accordingly, the accounting system in all the Cantonment Boards has moved to IT based Accrual Based Accounting System (ABAS).

The system is hosted on NIC server, and enables the Cantonment Boards (and also the Directorates and the DGDE) to access and review the financial status of the Boards on real time basis, plan development functions by assessing the net worth, assets and liabilities, improve tax planning (collection / payments), thereby bringing overall efficiency and transparency in the working of the Boards.

13. Ministry of Defence had constituted an Expert Committee on the Working of Cantonment Boards, under Chairmanship of Sh. Sumit Bose, IAS (Retd), which submitted its report to the Ministry in February 2019. The Ministry accepted some of the recommendations related to ease of living, such as facilitating permission for repair / maintenance of houses by defining "repairs", permission for construction of a WC / toilet in existing building within authorized tenements. Further, steps have been initiated for constitution of three more Committees i.e. the Finance Committee, the Education Committee and the Health & Environment Committee under section 48(e) of the Cantonments Act, 2006.

14. The 15th Finance Commission, in its report submitted in Nov 2019, for the year 2020-21, for the first time recommended that the States should make allotment of grants on population basis for the Cantonment Boards within their territories. Accordingly, the Cantonment Boards have started receiving the share of Finance Commission grant from the State Governments.

15. With GST coming into effect on 01 Jul 2017, and thereby abolition of certain taxes, such as Octroi, some Cantonment Boards lost a regular and important source of revenue. Such Boards are regularly taking up the matter with the respective State Governments for compensating for their revenue losses. As a result of such efforts, Government of Punjab, for the first time, released funds under Punjab Municipal Fund Scheme in order to compensate the Cantonment Boards of Jalandhar and Ferozepur for the loss incurred due to abolition of Octroi. Efforts are ongoing with other State Governments for compensating the loss of revenue after implementation of GST.

16. The year saw outbreak of COVID-19 pandemic, and the Cantonment Boards remained at the forefront to contain the spread of pandemic in the Cantonment areas, besides providing uninterrupted essential services such as sanitation, medical facilities, water supply, fire fighting, etc. The Cantonment Boards initiated all possible measures such as setting up isolation / quarantine facilities in the Cantonment General Hospitals, regular sanitization of public places, setting up fever clinics, awareness drives within Cantonments, educating the general public on COVID-19 'Do's and Don'ts'. The Cantonments Boards also coordinated closely with the district authorities in contact tracing, and ensuring that the applicable guidelines are followed by the Cantonment residents.

17. Raksha Mantri's awards for Excellence for the year 2019 were given on the occasion of Defence Estates Day, 2019 in the fields of (a) Maintaining Centres for Differently-abled Children; (b) Improvement in functioning of Cantonment Board Schools; (c) Swachh Chhavni-Swasth Chhavni; (d) Digital Accomplishments; (e)

Innovation in public service; (f) Land and Record Management; and (g) Improvement in Cantonment General Hospital to the selected Boards for their achievements in these areas.

18. The Cantonment Boards are taking all possible steps to provide efficient and responsive administration to the residents of the Cantonments within the resources available to them. The steps taken by the Boards in various fields of municipal administration are reflected in these Annual Administration reports.
